

UNIVERSAL PITOT & STATIC ADAPTER

Reliable products with outstanding service to ensure continued customer success.

SIMPLIFY

- ✓ Plug-and-play with most aircraft
- ✓ Lightweight, portable design
- ✓ Easy setup with articulating arms

PERFORM

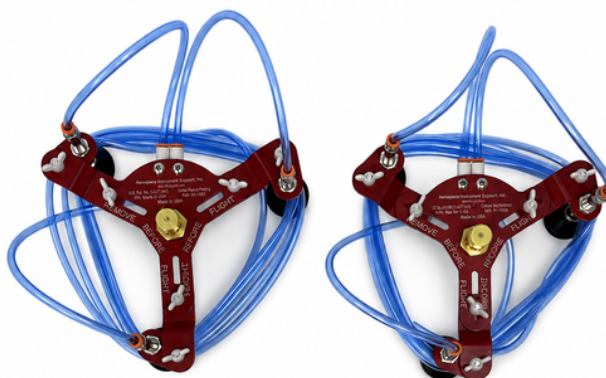

- ✓ Vacuum-mounted Static adapters
- ✓ Dual-port functionality
- ✓ Internal electric vacuum pump

PROTECT

- ✓ Check-valves to preserve suction
- ✓ Soft, non-damaging rubber adapters
- ✓ Integrated "Press to Release" button

UNIVERSAL PITOT & STATIC ADAPTER

The UPSA Kit comes with two Pitot adapters and two Static adapters. Each Static adapter has articulating arms with suction cups that use a vacuum supply to firmly mount the adapter to the aircraft body. The vacuum supply for the suction cups is provided by a vacuum pump that runs on AC power. The versatility of this system makes it extremely easy to reliably connect to an aircraft’s Pitot Static system.

SPECIFICATIONS

PORTABILITY	Lightweight, portable, fits in aircraft’s overhead bin
CASE & PUMP	High-impact black case with internal electric vacuum pump
ADAPTERS	Static: Qty 2, plates with fully articulating arms Pitot: Qty 2, made from pure gum rubber Soft Static Seals: 0.5”, 1.0”, 2.0” and 3.0” diameters
